

How to construct your BragTag:

**Choose your metal Brag Tag Kit – either
matte silver or brass**

**Choose optional BragTag Silencers in the
colors of your choice**

**Trim your photos to roughly 1-inch by 1 ³/₄-
inch**

**Adhere them to the front (and back, if you
choose to add more photos) of each BragTag**

**Apply a thin coat (to avoid air bubbles) of
Glossy Accents, Diamond Glaze, or similar
clear dimensional adhesive. Allow to dry.
Add additional coats as necessary.**

Once dry, add the silencers and ball chain.
